

Kuan-Ju Bondes

Product Designer

I am a Product Designer with a deep technical understanding and a good sense for future trends.

Work Experience

Senior Product & UX/UI Designer

ONCARE GmbH

APR 2017 – JUL 2020 , MUNICH

Redesigned a digital healthcare platform and app, and integrated new features into the product. Areas of works included UX reviews, refining user flows and interactions, visual design, prototypes and final design deliverables. Collaborated directly with developers to convert the design system into a UI library.

Cooperation Project

Fraunhofer IWU

MAR 2015 – JUN 2015 , DRESDEN

Open feasibility study for the design and experimental development of the hydroforming technology with additive internal structure to evaluate its limitations and possible practical applications.

Project Designer

OUTPUT Design Corp.

MAY 2013 – AUG 2013 , TAINAN

Applied local culture to product development and design of the brand LUWOOD; responsible for the product design and communication with manufacturer. Since 08.2013 it has been available in the market.
